

Welcome to the ERC Consolidator BrainMicroFlow project website

[ERC Consolidator Grants](#) is a funding scheme of the European Research Council designed to support excellent individual researchers at the stage at which they are consolidating their own independent research team or programme.

The BrainMicroFlow project, dedicated to numerical simulation of blood microcirculation in the brain of rodents and humans, has been awarded to [Sylvie Lorthois](#) in 2014 by the Products and Processes Engineering Panel (PE8) of the ERC. The corresponding grant amounts to EUR 1 999 873 over 5 years.
